Nairobi, Kenya.

Data Analyst with a strong foundation in data cleaning, analysis, and visualization, supported with hands-on experience across supply chain operations and AI data workflows. Proven ability to translate raw, structured, and semi-structured data into actionable insights using SQL, Python, Excel, and BI tools, improving data quality and operational efficiency.

SKILLS

- **Data Analysis & Processing**: SQL, Python (Pandas)
- **Visualization & Reporting**: Power BI, Excel
- **Analytic Methods**: Exploratory Data Analysis, KPI tracking
- **Collaboration**: Cross-functional reporting, Stakeholder communication
- **Data Preparation**: Cleaning, preprocessing and validation

PROJECTS

- **[Global Warehouse Expansion Strategy](#):** Supply chain analytics project identifying optimal regions for warehouse expansion by analyzing shipping, revenue, and demand data using Python, SQL, and Power BI to reduce logistics costs and improve delivery performance.
- **[Vehicle Import Tax Calculator](#):** Data cleaning and normalization project using Python to standardize raw vehicle import data, validate inputs, and apply structured business rules to produce consistent and reliable tax estimates.

WORK EXPERIENCE

Mindrift   **Feb 2024 - Present**
AI Tutor: Expert Annotator   **Remote**
- Performed high-accuracy data annotation and quality assurance to support AI model training and evaluation.
- Reviewed, validated, and corrected labeled datasets to ensure consistency and adherence to defined guidelines.
- Applied structured evaluation criteria to improve data reliability and reduce annotation errors.
- Collaborated with distributed teams to identify data quality trends and model improvement opportunities.

Single World Traders LTD   **Jan 2019 - Dec 2023**
Supply Chain Manager   **Nairobi**
- Prepared analytical reports on inventory levels, order fulfillment, and supplier performance, increasing stock accuracy to over **95%**.
- Developed an Excel-based route planning and tracking system, reducing transportation costs by **35%** and improving delivery times by **55%** leading to my promotion from Logistics officer to supply Chain manger in 2021.
- Designed KPI dashboards to track inventory turnover, fill rates, and order accuracy.
- Used data-driven insights to support operational and strategic decision-making.

EDUCATION

University of Nairobi   **Sep 2014 - Nov 2018**
BSc leather science and technology   Second class honors - upper Division

Our Lady of Fatima   **Feb 2010 - Nov 2013**
Highschool Diploma   Grade - A -
